SUMMARY

I am a third-year Management Information Systems (MIS) student at SETEC Institute with a strong passion for information technology, computer maintenance, and technical support. My education has provided me with technical knowledge and problem-solving skills that enable me to diagnose and resolve IT-related issues effectively. I am a hardworking, responsible, and fast-learning individual who enjoys helping users solve technical problems and ensuring systems operate efficiently. With a strong willingness to learn and adapt to new technologies, I am committed to contributing positively to an organization while continuously developing my professional and technical skills.
